

**SOFT™ LIGHTING SYSTEMS, Inc.**  
2224 – 137<sup>th</sup> Place S.E. Bellevue, WA 98005-4032  
Phone: 425.679.6550 [www.softlite.com](http://www.softlite.com)

The City had concerns about lighting such a large area but allowed the project ONLY if Full Cutoff luminaires were utilized. The Soft™ System was selected based on the superior control of off site glare. There have not been any complaints!!

The Soft™ Lighting System eliminates the industrial appearance of the typical lighting system and softly blends into the environment. Can you see all the poles? How many do you see? There are eight poles in this bottom photo.

Gig Harbor High School, Gig Harbor, Washington. Fall 2004.
